

ELECTRIC VEHICLE CHARGING

**IDACS' OLEV
APPROVED
INSTALLER
PROGRAMME**

iDACS
WORKING SMARTER

CALLING OLEV

approved
installers

Electric Vehicle sales are predicted to grow 50% year - on-year, due to Government incentives, low tax rates and a greater awareness of environmental issues. With this growth, comes increased demand for EV charging points - for commercial & residential premises.

This is a great opportunity for OLEV approved installers, however having to deal with admin, technical support and looking for new business **may be taking away valuable time from installation work.**

iDACS
WORKING SMARTER

Not JUST a Reseller!

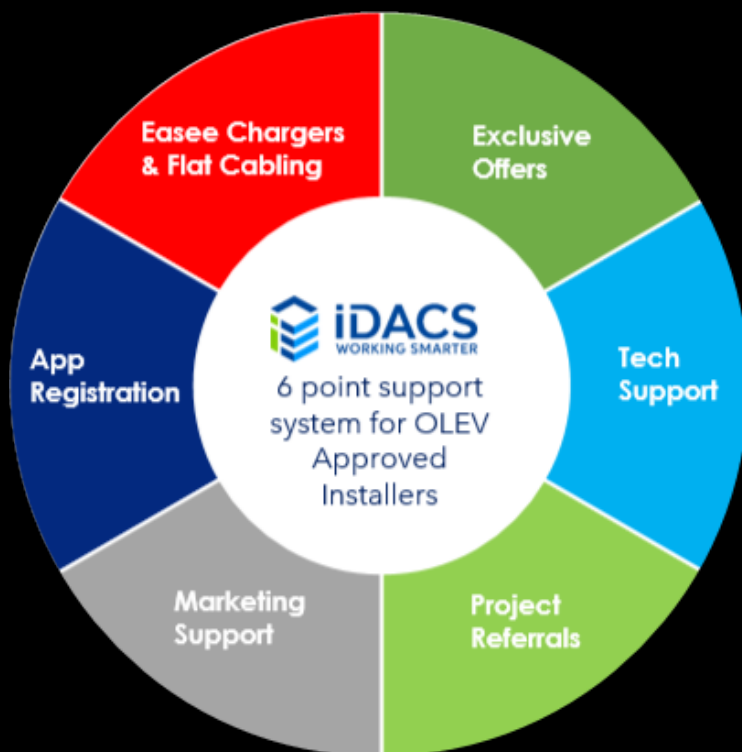

It's true – since Jan 1st 2021 iDACS has become an official UK reseller for Easee EV chargers....

however, we're not just another stockist!

As with all the systems we supply – we go further – we not only stock products, but we also drive product specification and work closely with our approved installation partners to jointly win business.

Our free 6 point programme for qualifying* OLEV Approved Installers;

- **Supply** – We stock Easee Commercial & Home EV Chargers & Cabling
- **Special Offers** – We have exclusive offers for our installation partners
- **Sales Leads** – We generate leads through joint marketing campaigns
- **Site Surveys** – We can bring you into opportunities through site surveys
- **Support (pre-sales)** – Our sales & marketing teams help you with marketing materials, bids, and specification tools; plus technical support
- **Support (post-sales)** – We help you obtain repeat business utilising Easee Ready units / system MoT's / service plans. Plus warranty support

Let us help you generate more EV installation business without taking away from your installation time. Contact us for details.

***Places are limited**, so please get in touch today to discuss your inclusion in this free programme.
